Dear Chris Westlake

**Re: Planning Application No. 15/0610/03
Queen's Crescent Garden proposed change of use from private open Space to public open
space; to support community aspirations for the Garden.**

I wish to register my support for the above application.

This green space has the potential to become a very important asset to St James if opened up to the public. It is ideally situated in the heart of the community to provide an area for a wide variety of social activities serving the needs of all sectors of the community.

It was sad to see the garden neglected for so many years, having a negative impact on the whole area and it has been a great encouragement to see the positive effect that has been achieved already as volunteers from the community have begun to take care of it and individuals and groups have started to use it.

I have lived in St James for years and would love to see the garden developed according to the community's wishes, used for the benefit of all and cared for by the community who will take a pride in it.

OR

Although I do not live in St James, I strongly support the proposed change of use because
As this green space is so near the City Centre, the change will be beneficial for the whole city and not just the residents of St James.

Yours sincerely

(Signed)
